

**To: MLPA North Central Coast Regional Stakeholder Group**  
**From: MLPA I-Team**  
**Re: Attached responses to science questions**  
**Date: February 19, 2008**

Attached to this memo are MLPA Master Plan Science Advisory Team (SAT) responses to science questions from your August 22-23, 2007 meeting as well as MLPA staff and preliminary SAT responses to questions from your October 16-17, 2007 meeting.

SAT responses to questions from your August 22-23 meeting have all been approved by the full SAT.

Responses provided to questions from your October 16-17 meeting have been addressed by MLPA Initiative and California Department of Fish and Game staff where those questions were either management or policy in nature. Science questions have been responded to by the SAT or in draft form by SAT work groups (such responses are identified); the full SAT will review the remaining draft responses at its next meeting.
